Skills

AV Tech

- Run lights and music at school events, fundraisers, hoco rallies and much more.
- Put together music soundtracks and playlists
- Experienced in LightKey which is a professional DMX lighting software

Events Coordinator for SCC(Sophomore Class Council)

- Successfully planned Winter Bonding which is a gathering of at least 80 people in our grade for a party which included activities like cookie baking and decorating along with white elephant.
- Planned events all of Homecoming week like dress up days and all nighter which is where everyone in the council spends the night at someones house

CAD Designing

- Took Intro To Engineering at Irvington High School
- Learned how to 3D Model on Autodesk Fusion and 3D print
- Created a portable and easy to make computer desk stand and presented it at City Hall at an Engineering Expo.

Volunteer Experience

Change Project Volunteering

Volunteered 12 hours. Group leader for a high school STEM Project which developed my abilities in creating Google Slide presentations and poster boards to present the effects of marine pollution. Allowed experience on Canva and physically designing on poster boards

Badminton Tournament Volunteering

Volunteered 72 hours. Led AV tech and troubleshooting on website for tournament's software. Also managed crowd control and led to better communication. Improved ability to respond to unforeseen circumstances.

Chinese School Teaching

Volunteered 12 hours. Taught kids at my Chinese School as a substitute for teachers. Worked as an Office TA and helped print and manage papers and grades for teachers. Went around doing errands and supporting the principal and teachers.
